**InsideOut® Underdeck Protection**

## What is InsideOut?

A specially designed and pre-engineered ceiling system that transforms the unsightliness of the underside of your deck into a desirable outdoor living space.

Finish: Dark Mahogany

Before

## What is InsideOut?

Besides creating additional living space, **InsideOut®** can make the inside of your home feel and look better—engineered for performance, designed to wow the neighbors!

Finish: White

## Before/ After

“**InsideOut**® brightened the rooms inside our home while covering the exposed nails, dirty rafters, and outright dreariness of the underside of our deck”. —Annette Sejat

Finish: White

Before

Is it just for  
**Homes?**

**InsideOut®** can be used to create an outdoor living area residentially, in multifamily settings, and commercially—engineered for performance, designed to wow your guests, no matter who they are.

Finish: Light Cherry

# Color

With woodgrain and solid color finishes, you'll be able to create an outdoor living space that reflects and expresses your personality.

Our color palette includes five distinctive painted wood finishes chosen for their unique species, grain and color; and eight rich matte finishes chosen for their visual temperatures and rich hues.

# Components

Installation really is easy.

It's a simple system! Water carrying panels are hung from a specially designed bracket that holds the panels in place even in the harshest climates.
